The Tennis and Track Company is a full-service contractor, offering complete services for the design, construction, rehabilitation or repair of sports facilities. We have a reputation for attention to detail along with a commitment to excellent customer service. With most of our work accomplished in-house, we have better control of scheduling, quality control and the final product. We don't specialize in just selling surfaces but in providing solutions. Please give us a call for help with any phase of your project.
